

Weed Army Community Hospital has achieved “Best of the Best” status in the “bedded facility” division, according to the Army MEPRS Program Office. Army wide MTF ranking is based on point values assessed for compliance with multiple criteria such as expenses, manpower, and workload performed. This data provides a basis for establishing a uniform, consistent financial and operating performance report to assist managers who are responsible for health care delivery.

CONGRATULATIONS to Weed Army Staff and specifically to Weed Army DMHRSi staff Mr. Marcel Porter and Ms. Valarie de Rose, for their excellent work!
